Lakewood Ranch Medical Center
Manatee Physician Alliance

From the CEO

Welcome to Manatee Healthcare System, an integrated system of care composed of hospitals Manatee Memorial Hospital and Lakewood Ranch Medical Center. Also included in the system are Manatee Diagnostic Center's four outpatient locations and Manatee Physician Alliance, comprised of 10 physician practices and three urgent care centers. We're proud to serve our friends and neighbors in Bradenton, Lakewood Ranch, Sarasota and surrounding communities.

In 2018, our facilities have experienced major growth to keep up with our expanding community. Manatee Memorial Hospital celebrated its 65th anniversary and opened a new Emergency Care Center that doubled the size of our previous ER space, using approximately two acres of existing land on the hospital's campus along Second Street East. Our Breast Care Center acquired the latest Hologic Clarity HD high-resolution Genius 3D™ Mammography imaging technology, which includes the new SmartCurve™ breast stabilization system for patient comfort. In early 2019, Manatee Memorial Hospital opened the first bi-plane interventional radiology suite in Manatee County to assist in the care of stroke and cardiovascular patients.

Manatee Memorial Hospital also recently developed a program called Alternative to Opioids toolkit with treatment plans and protocols to help minimize the use of opioids within the hospital's Emergency Care Center. The treatment program provides quality patient care through the use of alternative pain management therapies. Due to this national epidemic, we are now working with the Florida Senate on ways to place this toolkit in other Florida hospitals.

Lakewood Ranch Medical Center is just wrapping up the completion of their largest expansion project in the history of the hospital; adding two new state of the art operating rooms, an additional new heart catheterization lab, as well as expanded pre and post operative space and surgical waiting areas. The expansion also made room for new MRI and CT imaging technology as well as a new, larger location for The Breast Health Center, which is offering the latest technology in HD 3D imaging as well as 3D Sterotactic prone biopsy.

Manatee Diagnostic Center and Manatee Physician Alliance help round out the wide range of healthcare services offered by Manatee Healthcare System. The Manatee Diagnostic Center expanded its Parrish location in 2018 and will receive new equipment in 2019. Manatee Physician Alliance continues to grow, adding new physicians and services.

Manatee Healthcare System's 2,489 employees are dedicated to providing a positive experience with the highest-quality medical care possible. Many give of their time and expertise to support several non-profit agencies and generously donate money to support our community needs.

In 2018, Manatee Memorial Foundation, Inc. provided $48,000 in medical scholarships for students attending local universities and $146,000 to local community organizations, totaling $194,000.

I am very proud of our employees who make significant strides and advances in care every day in a compassionate and professional atmosphere. I invite you to take some time to discover the services provided by the hospitals, diagnostic centers, physician practices and urgent care centers that are all a part of our growing healthcare system.

Thank you for placing your trust in the people who are the Manatee Healthcare System.

Kevin DiLallo, FACHE
Chief Executive Officer
Manatee Healthcare System
Group Vice President, Acute Care Division

Manatee Healthcare System

Our Mission and Vision

Our mission at Manatee Healthcare System is to provide superior quality healthcare services that patients recommend to families and friends, physicians prefer for their patients, purchasers select for their clients, employees are proud of and investors seek for long-term results.

We will realize this vision through commitment to the following principles: service excellence, continuous improvement in measurable ways, employee development, ethical and fair treatment for all, teamwork, compassion and innovation in service delivery.

Overview of System

The Manatee Healthcare System in Manatee County, Florida comprises two hospitals: Manatee Memorial Hospital in Bradenton and Lakewood Ranch Medical Center in Lakewood Ranch. Beyond the hospital campuses, the System operates Manatee Diagnostic Center, a freestanding outpatient imaging center with four locations.

The Manatee Healthcare System is also affiliated with more than 13 freestanding primary care, specialty clinics and urgent care centers under the Manatee Physician Alliance.

The Manatee Healthcare System offers residents of Bradenton, Lakewood Ranch, Sarasota and surrounding areas a wide range of medical services including cardiac care/cardiovascular medicine, emergency medicine, surgery, orthopedic care, wound care and inpatient and outpatient rehabilitation services. 3D digital mammography is available at three Manatee Diagnostic Center locations as well as at the Breast Care Center at Manatee Memorial Hospital and the Breast Health Center at Lakewood Ranch Medical Center.

Labor and delivery services are available at both hospitals. Manatee Memorial Hospital offers the only Pediatric Center in the area, which includes a Level II Neonatal Intensive Care Unit for babies requiring a more intensive level of care. Manatee Memorial Hospital also offers the only program for outpatient pediatric therapy services.

Hospital History

Located off U.S. 301 and 41, Manatee Memorial Hospital was founded as Manatee Veterans Hospital in 1953 with 100 licensed beds. Ten years later, the hospital was renamed Manatee Memorial Hospital. In 1995, Manatee Memorial Hospital was acquired by Universal Health Services, Inc. Construction was completed in 2007 on a $51 million four-story wing that faces the Manatee River and includes an intensive care unit and surgical centers. In 2018, the hospital added a new 46,900 square foot Emergency Care Center.

Manatee Memorial Hospital has a long history of offering advanced healthcare services in a caring and compassionate environment. Today the range of medical services includes around-the clock emergency services for all ages, cardiac care/cardiovascular medicine, stroke services, including biplane interventional radiology, surgery services, including robotic-assisted surgery with the da Vinci Surgical System, weight-loss services, orthopedic services, outpatient and inpatient radiology and rehabilitation, respiratory care, sleep and oncology, wound care and women's and children's services.

Ever since Lakewood Ranch Medical Center opened its doors in September 2004 in the town center of the master-planned Lakewood Ranch community, the 120-bed facility has been the hospital of choice for many families in Manatee and Sarasota Counties. Located off of I-75 and University Parkway, the hospital has grown to meet the needs of the surrounding communities. The hospital provides comprehensive emergency treatment around-the-clock for all ages to performing life-saving surgeries, to chronic disease care and multiple specialty service offerings, such as an Orthopedic Spine and Joint Center, Sleep Center, Center for Wound Healing and Hyperbaric Medicine and inpatient and outpatient radiology services.

Manatee Memorial Hospital and Lakewood Ranch Medical Center are owned and operated by a subsidiary of UHS, Inc., one of the nation's largest hospital companies, operating through its subsidiaries, behavioral health facilities, acute care hospitals and ambulatory centers throughout the United States, Puerto Rico and the United Kingdom. Both hospitals are also accredited by The Joint Commission and have earned the Gold Seal of approval, which is a nationally recognized symbol of quality that shows a hospital's commitment to meeting rigorous performance standards.

Committed to Our Employees

At Manatee Healthcare System we believe our employees are the heart of this organization. Our highly skilled and compassionate employees are able to provide safe quality patient care within each of their areas of expertise. That is why we are committed to support the employees in career advancement through our internal "Grow Your Own" program and internal online education. Our employees are the reason we are accredited in many of our product lines.

Advancement within Manatee Healthcare System

We are committed to retaining the highest quality staff and providing a work environment that fits their skills and interests. We work with employees to provide internal growth and development within the company. We are proud of our success stories and our practice to promote from within.

Education and Training

Manatee Healthcare System programs provide continuing education for healthcare professionals and foundation scholarships for students in the community. This includes affiliation with local and online colleges and universities, many of which offer reduced tuition.

In addition, the Manatee Healthcare System partners with area universities and colleges to provide clinical rotations for nursing and therapy students and other healthcare professionals. Tuition reimbursement is provided by the hospital for job-related and job-readiness courses at local colleges, universities that are CHEA accredited.

Continuing Education Benefits

In 2019, we are committed to provide almost $100,000 in tuition benefits to employees through our continuing education assistance. We provide internal online 'prep' classes for specialty certifications in most patient care areas, free of charge and our LMS system provides certain continuing education units for employee license renewal, free of charge.

Healthcare System Rewards Nurses

The DAISY Award is a nationwide program that rewards and celebrates the extraordinary clinical skill and compassionate care given by nurses every day. Manatee Memorial Hospital and Lakewood Ranch Medical Center are proud to be DAISY Award Hospital Partners. Each hospital selects outstanding registered nurses because of their consistent demonstration of service excellence. The nurses that are selected are nominated by patients and/or their families for the outstanding care they provide.

Lakewood Ranch Medical Center Specialty Services

Emergency Room

The Emergency Room (ER) at Lakewood Ranch is highly experienced in treating a wide array of illnesses and injuries of patients of all ages. The 24/7 ER offers skilled physicians and practitioners dedicated to providing the highest quality of emergency medical care to our patients.

Cardiovascular Services

Lakewood Ranch Medical Center has Chest Pain Center Accreditation with PCI (Percutaneous Coronary Intervention) from ACC* and offers a range of technologically advanced diagnostic and interventional cardiac procedures performed by experienced medical professionals, including cardiac catheterization, stress testing, peripheral angiography, echocardiography (ECG) and electrocardiography (EKG), acoustic pulse thrombolysis (EKOS) and electrophysiology studies (EP) and treatment for pulmonary embolism. The hospital has two heart catheterization labs as well as a STEMI program that provides coronary interventions for patients who may experience a heart attack.

Stroke and Cerebrovascular Center

Lakewood Ranch Medical Center is certified by The Joint Commission as an Advanced Primary Stroke Center and is a Get With The Guidelines® Gold Plus Quality Achievement Award and Target: Stroke℠ Elite Honor Roll award recipient. The Center provides prompt, expert treatment for stroke patients as well as stroke prevention, intervention, rehabilitation and education.

Radiology/Imaging Services

Lakewood Ranch Medical Center provides comprehensive inpatient and outpatient radiology services using advanced digital equipment, delivered by highly trained and professional Technologists, Nurses and Radiologists. Services include:

- Ultrasound including:
  - General, Breast and OB Imaging
  - Advanced Vascular Imaging by Registered Vascular Technologists
- Diagnostic X-ray
- Fluoroscopy
- Nuclear Medicine
- Magnetic Resonance Imaging (MRI)
- CT Profusion Scans for Stroke
- Cardiac CTA/Cardiac Scoring
- Computed Tomography (CT scan)
- MRI Prostate Imaging
- MRI / MRA Cardiac Imaging
- Multi-Slice Computed Tomography Angiography (CTA)
- MR/CT Arthroscopy
- Digital Radiology
- HD 3D Mammography/Tomosynthesis
- Interventional Radiology
- Bone Density (DEXA Scan)
- CT Biopsy
- Ultrasound-Guided and MRI-Guided Breast Biopsies
- Preoperative Needle Localization
- Sentinel Lymph Node Mapping
- SIR-Spheres Therapy
- Breast MRI
- Sterotactic Breast Biopsies
- Certified Breast Navigator
- Savi Scout® Wire-Free Breast Mass Localizations

**American College of Cardiology (ACC) Accreditation Services, formerly the Society of Cardiovascular Patient Care*

Surgical Services

Offering inpatient and outpatient surgical services with experienced surgeons and supportive skilled clinical staff, our hospital offerings include minimally invasive techniques, robotic surgery and technologies such as wire-free radar localization during breast conservation surgeries and High Intensity Focused Ultrasound (HIFU) for prostate cancer treatment. The hospital's surgical service areas include:

· Cardiovascular surgery
· Ear, nose and throat surgery
· Gastrointestinal surgery
· General surgery
· Gynecological surgery
· High Intensity Focused Ultrasound (HIFU)
· Joint replacement surgery
· Orthopedic surgery
· Neurological surgery
· Sports medicine surgery
· Plastic and reconstructive surgery
· Podiatric surgery
· Spine surgery
· Thoracic surgery
· Urological surgery
· Weight-loss surgery
· Diagnostic X-ray
· Fluoroscopy

The Orthopaedic Spine and Joint Center

Fellowship-trained spine and orthopaedic surgeons work alongside specially trained orthopaedic nurses and physical therapists at the Orthopaedic Spine and Joint Center at Lakewood Ranch Medical Center. Patients undergoing joint replacement procedures benefit from perioperative education, group therapy classes and a regimented approach to healing that has produced improved outcomes and fast recovery. *Our hospital has earned The Joint Commission Core Certification for hip and knee replacement, reflecting our commitment to providing safe and effective patient care. The Othopaedic Spine and Joint Center is an active participant in the nationally renowned Marshall Steele program.*

Women and Children's Center

The Women and Children's Center at Lakewood Ranch Medical Center provides family centered care throughout the childbirth process, offering labor and delivery services, a nursery and an extensive offering of pre and post-delivery educational classes and support groups for families. The Women and Children's Center's outstanding nursing staff also provides compassionate, patient-centered care for post-operative gynecological surgery patients. *Our Women and Children's Center is designated by Florida Blue® as a Blue Distinction Center+ for Maternity Care.*

Lakewood Ranch Medical Center

196,095 Square Feet

120 Beds

7 OR Suites

12 Labor-Delivery-Recovery Postpartum Suites

The Breast Health Center

The hospital's Breast Health Center offers high definition 3D mammography, allowing physicians to examine breasts with more precision during the first screening, potentially saving patients time and unnecessary worry. The Center also offers breast MRI, computer-aided detection, breast ultrasound, 3D stereotactic breast biopsy, high risk screening (including genetic testing) wireless breast mass localizations and other advanced technologies.

The Center for Wound Healing and Hyperbaric Medicine

The Center for Wound Healing and Hyperbaric Medicine at Lakewood Ranch Medical Center uses advanced medical techniques to help the healing process for wounds that don't heal through conventional methods. The staff includes physicians with advanced training in wound management and hyperbaric oxygen therapy, nurses trained in care of chronic wounds and technicians who perform noninvasive studies and various therapies. *Our program has been awarded with national recognition as a Center of Excellence for outstanding clinical outcomes from Healogics, Inc.*

The Sleep Center

Lakewood Ranch Medical Center and Sleep Works Diagnostics, a national sleep center organization, are working together to provide patients who have sleep disorders with the advanced technology and treatment they need at our newly constructed Sleep Center. The Sleep Center treats a wide range of sleep disorders, including snoring, sleep apnea, excessive daytime sleepiness, restless leg syndrome, periodic limb movement disorder, parasomnias, including sleepwalking, night terrors and nocturnal eating disorders, hypersomnia, insomnia and narcolepsy.

Physical Therapy

In addition to providing inpatient physical therapy, a comprehensive range of outpatient physical therapy services are provided by highly credentialed professionals. Our dedicated team delivers high-quality care through a variety of treatment options, including:

· Orthopaedic care
· Manual therapy
· Sports physical therapy
· Balance and Fall prevention
· Industrial physical therapy
· Women's health physical therapy
· Pelvic Floor therapy

Staff expertise allows for the development of programs that are tailored to fit individual needs.

Commitment to High Quality Patient Care - Lakewood Ranch Medical Center

Lakewood Ranch Medical Center has its own list of crowning quality achievements and the hospital is recognized for achieving and exceeding patient care goals:

- Earned "A" Hospital Safety Grade from Leapfrog, for Spring and Fall 2018
- The Joint Commission Hospital and Laboratory Accreditation
- The Joint Commission Hospital Certificate of Distinction for Advanced Certification as Primary Stroke Center
- The Joint Commission Core Certification Programs for Joint Replacement – Knee and Joint Replacement-Hip
- Blue Cross®/Blue Shield® Distinction Center + for Maternity
- American College of Radiology Accreditations: CT, MRI, Ultrasound, Mammography, Stereotactic Biopsies, Nuclear Medicine, Breast Imaging Center of Excellence
- Chest Pain Center Accreditation from the American College of Cardiology with Percutaneous Coronary Intervention (PCI)
- Earned Get with the Guidelines® Gold Plus Quality Achievement Award with Target: Stroke Honor Roll Elite Plus from the American Heart Association®/American Stroke Association®
- Reached National Quality Improvement Goals for Heart Attack, Heart Failure, Perinatal, Pneumonia, Stroke, Surgical Care as reported by The Joint Commission.
    - Reached best possible results for Stroke Care: thrombolytic therapy and Perinatal: Elective Delivery
    - Performed above target range/value for Influenza Immunization
- Participates in many national quality and patient safety campaigns and initiatives
    - Centers for Medicare and Medicaid Services
        - Inpatient Quality Reporting Program (IQR)
        - Hospital Outpatient Quality Reporting Program (OQR)
    - The Joint Commission
        - National Patient Safety Goals
    - National Database and Registries
        - National Cardiovascular Data Registry
        - Dose Index Registry
        - Leapfrog
        - Health Service Advisory Group (HSAG)
        - Institute of HealthCare Improvement (IHI)
        - Press Ganey
- Engaged in evidence-based initiatives that include:
    - Sepsis Interdisciplinary team focused on early identification and timely intervention which resulted in improved outcomes well above the national average for patients diagnosed with sepsis
    - #PULLTOGETHER project focused on improving throughput and staff work flow which reduced ER patient wait times. This creates a safer environment for every patient, every time.
    - Team D/C ME is a new initiative to improve discharge experience
- Zero Harm is a continual effort to reduce risks of injury to patients; we aim for zero harm and strive to create a system that provides the highest quality health care to every patient. This is in collaboration with The Centers for Medicare & Medicaid Services (CMS)
- Infection control and prevention strategies are part of the core quality initiatives aimed at the reducing/eliminating hospital and community acquired infections.

**American College of Cardiology (ACC) Accreditation Services, formerly the Society of Cardiovascular Patient Care*

Milestones Including Facility Growth and Renovations

Lakewood Ranch Medical Center Milestones

- Completed largest expansion project in the hospital's history which included:

  - Two new operating rooms fully equipped with new technology

  - Shell space constructed for two additional operating rooms

  - New, technologically advanced Heart Catheterization Lab

  - New and expanded pre and post surgical areas

  - New and expanded surgical waiting area

  - Newest technology in X-Ray Imaging with 600 pound table limit. Also 80 Slice CT scanner with extended vascular scanning technology and high table weight limit

  - New MRI imaging room and state of the art MRI imaging machine, considered one of the safest MRI Suites in the region with all new built in safety features and the newest innovations in patient comfort to help improve patient experience (patients can watch TV while having their scan).

  We are currently among only four facilities in the nation to have the latest MRI technology with faster scan times and the quietest magnet available in the market. Also, added new Computed Tomography (CT) imaging technology.

  - New administrative office wing for hospital support services

- Earned an "A" Hospital Safety Grade for Spring & Fall 2018 from the Leapfrog Group for the hospital's efforts in protecting patients from harm and meeting the highest safety standards in the US.

- Began offering professional Breast Care Navigation services

  - Acquired new 3D Mammography System

  - Relocated our Breast Health Center to 8340 Lakewood Ranch Blvd. offering our patients a spa like experience and expanded services

* Automated Critical Results Notifications

* Successful renewal of ACR accreditation in Nuclear Medicine, MRI, CT and Ultrasound.

  - Awarded Breast Imaging Center of Excellence Designation

- Started Lakwood Ranch Medical Center Branch of the MHS Cancer Conference.

- Installed new and improved patient room signage system in Progressive Care Unit

- Distributive Antenna System (DAS) is scheduled for installation to improve cellular coverage

- New and improved Wi-Fi connectivity will improve the availability, security and efficiency of all Wi-Fi based servers in the hospital

- Three large enterprise clinical initiatives allowing for technical alignment and performance enhancement of Care Aware Connect, Alaris Pumps and Vital link

- Instituted Courtesy Shuttle program to assist Medical Center Campus visitors

- Hospital exterior refresh including - pressure washing, sealing and painting

- Parking lot repair, reseal and refresh

- New Medical Center Campus irrigation system

- Medical Center Campus landscaping enhancements

- Recycling program enhancements reduced carbon footprint activity from 288 to 48 trucks annually, reducing wear and tear on local roads and reducing emissions

- The Joint Commission

  - Hospital re-accreditation

  - Laboratory re-accreditation

  - Certificate of Distinction for Advanced Certification as a Primary Stroke Center- intra-cycle

  - Core Certification for Joint Replacement – Hip

  - Core Certification for Joint Replacement – Knee

- American Heart Association Mission: Lifeline® Silver Receiving Quality Achievement Award

- National Cardiovascular Data Registry (NCDR) participant

- AHCA Life Safety Survey – Zero findings

- Participant in Institute of Healthcare Improvement 5,000,000 Lives Campaign

**American College of Cardiology (ACC) Accreditation Services, formerly the Society of Cardiovascular Patient Care*

Community Impact Summary of Lakewood Ranch Medical Center

Volunteers are a treasured part of the team at Lakewood Ranch Medical Center. With more than 128 caring, dedicated individuals volunteering their time and talents in 16 departments throughout the hospital, and manning our hospital courtsey shuttle service, our volunteers bring an added dimension of compassion and care that is appreciated by patients, visitors to the hospital and staff.

In addition to our valued adult volunteers, we offer an annual summer program for high school students. Our VolunTeen program provides participants an opportunity to volunteer in a hospital environment with the goal of learning more about the healthcare industry and themselves while helping others. In 2018, our adult and teen volunteers contributed 14,760 hours of service to patients and their families.

Sustainability

Lakewood Ranch Medical Center has an active recycling program to reduce the hospital's carbon footprint and the amount of trash generated by staff and guests.

One of Lakewood Ranch's core values is Stewardship, which means we honor our heritage and hold ourselves accountable for the human, financial, and natural resources entrusted to our care.

For years, Lakewood Ranch Medical Center has recycled items such as batteries and corrugated cardboard. As we continue to make enhancements to the hospital's recycling program by identifying and making accommodations to include more recyclable items, the program will continue to reduce hospital trash volumes.

The program involves the placement of recycling bins near trashcans throughout the hospital. It also includes events and activities to help educate colleagues and visitors about the types of items that are recyclable and which are trash. Many members of the hospital staff volunteer their time as team members for the program and act as a resource for anyone with recycling questions or needs.

Additionally, containers have been replaced with a single stream recycle compactor. By compacting both trash and recycle items, the hospital expects to reduce the need for outbound trucks to haul away by more than 80 percent. This offers a number of benefits for the environment, including lower gas emissions. It will also improve the longevity of roadway infrastructure surrounding the hospital. New, energy efficient LED lighting has been installed in multiple departments and areas throughout the hospital.

Hospitals' Recognitions: Accreditations and Awards

Lakewood Ranch Medical Center is proud of the following accomplishments:

- Mission Lifeline Gold - AHA
- Earned consecutive "A" Hospital Safety Grade for Spring and Fall 2018 from the Leapfrog Group
- Designated Blue Distinction Center+ for Maternity Care, Florida Blue, 2018
- Mission Lifeline STEMI Receiving Center, Silver Performance American Heart Association, 2018
- The Joint Commission Core Certification for Hip and Knee Replacement
- Stereotactic Breast Biopsy Accredited facility, American College of Radiology
- The Joint Commission Gold Seal of Approval
- Chest Pain Center accreditation from ACC* with PCI
- The Joint Commission Advanced Primary Stroke Center certification
- Get with the Guidelines Gold Plus Quality Achievement Award with Target Stroke Honor Roll Elite Plus from the American Heart/American Stroke Association, 2018
- Blood Gas Laboratory Accreditation, College of American Pathologists
- Center of Excellence Award for clinical excellence from Healogics, Inc., 2018

Manatee Memorial Hospital Speciality Services

Rehabilitation and Sports Medicine Center

A Service of Manatee Memorial Hospital

8770 East State Road 70 | Bradenton, FL 34202
Off State Road 70 in the Ranch Lake Plaza

Outpatient physical therapy services are available at Manatee Memorial Hospital's Rehabilitation and Sports Medicine Center. Highly trained physical therapists perform thorough evaluations and develop tailored treatment plans to help meet patients' individual goals. Treatment sessions are one-on-one and focus on hands-on treatment, manual techniques and exercises to help patients move better and reduce pain. Common conditions treated at the center include: neck and back pain, upper and lower extremity pain, post-surgical conditions, sports Injuries, work related Injuries, fall prevention, lymphedema and neurological conditions. For more information please call 941.745.7559 or visit manateememorial.com and select Rehabilitation Services.

Emergency Care Center

Manatee Memorial Hospital's new Emergency Care Center opened in December 2018 and doubled the size of our previous ER space. The Emergency Room plays an essential role in caring for the urgent health needs of our growing metropolitan area, treating more than 80,000 children and adult patients each year. Child-centered emergency services feature a pediatric hospitalist on staff from 2 p.m. to midnight.

Manatee Heart and Vascular Center

Manatee Heart and Vascular Center staff provides an individualized approach to heart care. Our patients receive assessment, diagnosis, planning, intervention and evaluation of their specific cardiac care needs. Cardiologists and Cardiothoracic Surgeons coordinate care with other members of the healthcare team, including the surgery and emergency departments, to help put patients on the road to recovery. *Our cardiac program has received accreditation as a Chest Pain Center with PCI and Resuscitation from the American College of Cardiology; accreditation in Adult Transthoracic Echocardiography and Adult Transesophageal Echocardiography by the Intersocietal Accreditation Commission; and received the Mission Lifeline STEMI Receiving Center, Gold Performance American Heart Association recognition for the fourth year.*

The Structural Heart Program

The Structural Heart Program at Manatee Memorial Hospital features a team of physicians specially trained in echocardiography, interventional cardiology and electrophysiology, along with cardiothoracic surgeons, nurse practitioners, program coordinators and navigators, who are dedicated to the health of your heart and vascular system. The clinical staff focuses on treating aortic stenosis, stroke and bleeding risks associated with atrial fibrillation. Advanced therapies offered at the program include Surgical Valve Repair or Replacement, MitraClip® for mitral regurgitation, the WATCHMAN,™ Left Atrial Appendage Closure (LAAC) Implant for non-valvular atrial fibrillation and transcatheter aortic valve replacement (TAVR) for symptomatic aortic stenosis.

Surgery

From treating digestive disorders to cancer, the team at Manatee Memorial Hospital's Surgery Center has a wide range of experience using advanced tools and techniques, and has received national recognition. When appropriate, minimally invasive surgical techniques offer shorter hospital stays, quicker recovery periods and a faster return to daily activities.* Manatee Memorial Hospital was the first in Manatee County to offer robotic-assisted surgery using the da Vinci® Surgical System. Surgeries include, but are not limited to general surgery, cardiac surgery, urologic and gynecologic procedures, plastic and reconstructive surgery, advanced laparoscopic procedures for gastroesophageal reflux disease, orthopedic, neurologic, spine and weight-loss procedures.

The Stroke and Cerebrovascular Center

The center has Advanced Primary Stroke Center certification from The Joint Commission and American Heart Association/American Stroke Association and has received the American Heart Association/American Stroke Association's Get With The Guidelines® - Stroke Gold Plus Quality Achievement Award for 10 years and additionally received the association's Target: StrokeSM Elite Honor Roll award for the second year.

Manatee Memorial Hospital

600,400 Square Feet

295 Beds

- **12 OR Suites**
- **12 Labor-Delivery-Recovery Postpartum Suites**

Orthopedic and Spine Surgery

The Center for Orthopedic and Spine Surgery at Manatee Memorial Hospital offers a comprehensive range of services, including foot and ankle surgeries, hip, knee, shoulder and spine surgeries, sports medicine and joint replacement. Manatee Memorial's multidisciplinary team includes specially trained physicians, nurses, physical and occupational therapists, case managers and an orthopedic nurse navigator. *The Center is certified for Hip and Knee Replacement through The Joint Commission.*

Lung Institute

The Lung Institute at Manatee Memorial Hospital has a dedicated multi-disciplinary team of physicians and healthcare professionals including a dedicated nurse navigator who work together to determine the best course of action for people who are diagnosed with lung cancer. *The institute is designated as a Lung Cancer Screening Center and is part of the Lung Cancer Screening Registry by the American College of Radiology and is a Screening Center of Excellence by the Lung Cancer Alliance.*

Interventional Radiology

Manatee Memorial Hospital is the first hospital in Manatee County to offer a biplane room for stroke patients and an Interventional Radiology Suite that is used to treat blockages inside arteries and veins, block off blood vessels that nourish tumors, destroy malignant tumors, using focused heat and freezing, drain blocked organ systems, such as the liver, gallbladder and kidney, and perform biopsies that would otherwise require surgical exploration. Interventional radiologists often work with oncologists to perform innovative procedures to treat cancer patients and to improve quality of life.

Pediatric Center

Manatee Memorial Hospital is proud to offer the only Pediatric Center in Manatee County. Children (newborns to 18 years old) receive personalized attention from our staff 24 hours a day. The Pediatric Center is a 15-bed unit designed so patients can be observed from a centrally located nursing station. The healthcare team is certified in Pediatric Advanced Life Support.

**Individual results may vary. There are risks associated with any surgical procedure.Talk with your doctor about these risks to find out if minimally invasive surgery is right for you.*

Specialty Services at Manatee Memorial Hospital (continued)

Manatee Memorial's Outpatient Imaging Center

Manatee Memorial's Outpatient Imaging Center offers inpatients and outpatients advanced, comprehensive diagnostic and interventional services, delivered by highly trained radiologists and technologists in a bright, cheerful, convenient location next to the hospital. The Outpatient Imaging Center at Manatee Memorial provides the following services:

- High Definition 3D Mammography
- Multi-slice computed tomography (CT and CTA)
- Low-dose lung cancer screening
- Cardiac CTA and calcium scoring
- Magnetic resonance imaging (MRI-MRA), including breast and musculoskeletal imaging
- Bone density testing
- Ultrasound (including general, breast imaging, vascular and OB)
- Nuclear medicine
- X-rays – digital radiography
- Fluoroscopy
- Interventional breast, radiology and special procedures
- Vascular imaging

Our center has received the American College of Radiology's Breast Imaging Center of Excellence and their facility accreditation's for Breast Magnetic Resonance Imaging; Breast Ultrasound; Stereotactic Breast Biopsy; Mammography; CT Adult – Head, Neck Chest, Abdomen; CT Pediatric – Head, Neck Chest, Abdomen; MRI Head, Spine, Body, Musculoskeletal; Nuclear Medicine – Planar, SPECT, Cardiology Accredited Facility; Ultrasound General – OB first Trimester, Gynecological, General. The Lung Institute is designated as a Lung Cancer Screening Center and is part of the Lung Cancer Screening Registry by the American College of Radiology and is a Screening Center of Excellence by the Lung Cancer Alliance.

Sleep Center

Physicians at the sleep center focus on diagnosing and treating sleep disorders such as sleep apnea, insomnia and other conditions. Our sleep center follows the American Academy of Sleep Medicine standards. Every aspect of care is carefully managed using specially-designed software unique to our practice.

Women's Services

Women can expect excellent healthcare from Manatee Memorial at each stage of their lives. Our services include labor and delivery and Level II Neonatal Intensive Care Unit (NICU), a newly renovated mom baby unit, breast care, inpatient and outpatient lactation consultants, support, classes and education. Our Family Birthplace was designated a Blue Distinction® Center+ for Maternity Care, Florida Blue in 2018.

Manatee Memorial's Breast Care Center

Now offers the Hologic® Genius Clarity HD high-resolution 3D ™Mammography Imaging technology, which includes the new SmartCurve™ breast stabilization system for patent comfort. The new Clarity HD high-resolution 3D™ imaging technology provides radiologists with more precise, deeper images to help identify cancers early. Manatee Memorial's Breast Care Center is an Imaging Center of Excellence by the American College of Radiology (ACR).

Surgical Weight Loss Program*

Manatee Memorial Hospital's Surgical Weight Loss Program offers surgical and non-surgical weight-loss options for those seriously overweight to get the long-term weight-loss help they need. *We are accredited as a comprehensive center from the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program.*

The Wound Care and Hyperbaric Treatment Program

The Wound Care and Hyperbaric Treatment Program at Manatee Memorial Hospital provides specialized treatment for non-healing wounds associated with arterial and venous insufficiencies, diabetes, immobility and many other chronic conditions. The program provides advanced treatments including specialty wound dressings, cellular and tissue based products, compression therapy, negative pressure wound therapy, and hyperbaric oxygen therapy. *For the seventh consecutive year, our program has received the Clinical Service Center of Distinction and Center of Excellence Award for Wound Care from Healogics, Inc.*

**Individual results may vary. There are risks associated with any surgical procedure. Talk with your doctor about these risks to find out if bariatric surgery is right for you.*

Commitment to Quality Care and Patient Care - Manatee Memorial Hospital

Manatee Memorial Hospital is regularly recognized for our commitment to quality and safety, exceptional advanced care, and leading outcomes. We achieve a high level of performance through teamwork and a culture of safety and continuous improvement.

Manatee Memorial Hospital uses the ultraviolet R-D Rapid Disinfector UVC Light System. This system enhances patient safety by destroying deadly pathogens, such as Clostridium difficile (C.diff), that can cause healthcare associated infections (HAI). The system is a rapid, safe and effective method for the advanced cleaning of healthcare facilities.

The hospital participates in many national quality and patient safety initiatives, which include but are not limited to:

Centers for Medicare & Medicaid Services

- Inpatient quality Reporting Program
- Hospital Outpatient Quality Reporting Program

The Joint Commission

- National Patient Safety Goals
- Primary Stroke Center
- Total Hip and Knee Certification

State and National Databases and Registries

- Multiple initiatives geared toward obtaining CMS 5 Star Rating and Leapfrog "A" Hospital Safety Grade.
- Accredited Chest Pain Center
- Society for Thoracic Surgery National Database (STS)
- Society of Thoracic Surgeons/American College of Cardiology Transcatheter Valve National Cardiovascular Data Registry
- Florida Department of Health Acute Care
- Trauma Registry
- General Radiology Improvement Database
- Dose Index Registry
- Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program
- National Healthcare Safety Network
- Florida Cancer Data Systems Cancer Registry
- Leapfrog
- National Quality Forum (NQF)
- Association for Healthcare Research and Quality (AHRQ)
- Press Ganey
- Institute for Healthcare Improvement (IHI)

Additional projects are underway at Manatee Memorial Hospital that support the delivery of evidence-based care, resulting in better clinical outcomes for patients. Some examples include:

- Hospital-wide focuses on Zero Harm. All potential harm events are reviewed in great detail to identify trends and correct practices. We have seen as much as a 70 percent decrease in many types of harm events such as HAIs.
- Increased focus on Bedside Shift Report, Hourly Rounding, and Leader Rounding to facilitate better patient care and improved patient and staff satisfaction.
- Executive Leader Daily Huddles and twice daily Unit Huddles to review any patient safety concerns and discuss actions to mitigate harm.
- Active involvement of both our Board of Governors and Medical Executive Committee in quality and patient safety through the annual adoption of Hospital AIMS. Every year, our progress on past AIMS is evaluated, as well as new identified trends within the hospital or healthcare in general. After this analysis, the AIMS are set for the coming year and compliance on each AIM is monitored and reported monthly with initiatives to improve outcomes.

Milestones Including Facility Growth and Renovations

Manatee Memorial Hospital has a number of milestones to celebrate over the past year:

- Opened new Emergency Care Center in Fall 2018, doubling existing ER to 46,000 square feet
- Became the first hospital in Manatee County to offer a biplane room for stroke patients and Interventional Radiology Suite that is used to treat blockages inside arteries and veins, block off blood vessels that nourish tumors, destroy malignant tumors using focused heat and freezing, drain blocked organ systems such as the liver, gallbladder and kidney, and perform biopsies that would otherwise require surgical exploration.
- Received Chest Pain Center accreditation Primary PCI with Resuscitation from ACC*
- Received Adult Transthoracic Echocardiography by the Intersocietal Accreditation Commission (IAC)
- Received Mission Lifeline Gold Award from AHA
- Opened ***Structural Heart Clinic*** to streamline the Structural heart process for patients
- Integrated DICOM images into the HIE
- Implemented Automated critical results notifications
- Successfully renewed ACR accreditation for Breast Center of Excellence, Nuclear Medicine, CT and ultrasound
- ACR-Designated Low Dose Lung Screening Center
- Relaunched Cancer Conference
- Acquired new 3D™ Mammography Imaging Technology for the Breast Care Center
- Implemented New Lung Navigator
- Manatee Memorial Hospital offers classes on Diabetes, A Matter of Balance, Tai Chi for Arthritis and Fall Prevention, and Weight Loss. Support Groups include Breast Cancer, Diabetes, Healthy Hearts, Stroke, Orthopedics, Parkinson's and Weight-Loss Surgery. We also partner with Life Line Screening® to provide health screenings to residents throughout the year.
- Started screening for genetic testing (at the time of mammography)
- Installed a new CT scanner

Manatee Diagnostic Center

- Became a Screening Center of Excellence by the Lung Cancer Alliance in 2018
- Became a member of the Lung Cancer Screening Registry by ACR in 2018
- Expanded their Parrish location

**American College of Cardiology (ACC) Accreditation Services, formerly the Society of Cardiovascular Patient Care*

Graduate Medical Education

Manatee Memorial Hospital offers three accredited residency training programs. The Family Medicine (FM) and Internal Medicine (IM) programs are both three year post-doctoral programs, while the Pharmacy Residency is a one year program. The FM and IM programs prepare physician residents to care for their patients in the office and through any hospitalizations. While both programs care for patients in the acute care setting, FM residents also care for children and have an emphasis in training in the outpatient setting. The IM residents staff an onsite primary care practice under the supervison of their faculty. The Pharmacy Residency training program prepares licensed pharmacists to provide exceptional direct patient care in the acute inpatient setting.

Pharmacy Residents

Community Impact Summary of Manatee Memorial Hospital

Dedicated Education Unit for Nurses

In early 2019, Manatee Memorial Hospital opened the first dedicated education unit for nurses in our area on the medical surgical floor of the hospital. The first group of nursing students comes from the State College of Florida, Manatee-Sarasota. The clinical experience of being on the unit and working side-by-side with our nurses will provide students with optimal training and experience in patient care. This approach has been used in many parts of the country with much success. Those who successfully complete the program will have an opportunity to become employed by Manatee Memorial Hospital.

Volunteering at Manatee Memorial Hospital

Manatee Memorial Hospital has over 425 adult and teen volunteers who have donated more than 64,000 hours of selfless service to our patients, visitors and staff in 2018. Our volunteers are always appreciated for their sharing of their time and talents with others. Volunteers assist in over 50 different departments of the hospital as well as the Shoppe on the River gift shop and Manatee Memorial Foundation, Inc. Thrift Shop. Over 100 students participate in our Summer Teen Volunteer Program and in shadowing opportunities.

The objective of the Women's Action Committee (WAC) of Manatee Memorial Hospital is to identify and address the health needs of women, children and families within the community. The WAC, which comprises 40 community and staff members, supports and assists Manatee Memorial regarding outreach programs and services related to women, children, and families.

The Manatee Memorial Foundation, Inc. is a 501(c)(3) non-profit organization established in 1992 to support health-related needs of the Manatee County community. The Foundation's major emphasis is on the healthcare needs within our community and scholarships for medical education. The Foundation receives funding through donors, events and several hospital operations including the Manatee Memorial Foundation, Inc. Thrift Shop at 4517 Manatee Avenue West and the Shoppe on the River gift shop located in the lobby of the hospital.

Sustainability

Manatee Memorial Hospital's Maintenance/Engineering Department has joined forces with Purgenix, Inc., to install the latest technology of Ultraviolet Germicidal Irradiation (UVGI) in our new and existing air handlers. This ultraviolet design not only eliminates airborne pathogens within air handling systems, but greatly reduces potential bacteria colonization and organic overgrowth in HVAC coils that also significantly improves energy efficiency. The main benefit of this technology is the reduction in bacterial, viral, fungal concentrations in the air, decreasing surface contamination and potentially decreasing nosocomial infections. This project will continue over the next three to five years until all air handlers have been fitted with this technology. Lakewood Ranch Medical Center will also be adding this technology this year.

Manatee Memorial Hospital has also implemented a recycling program with containers throughout the campus to help reduce the volume of trash generated by staff and visitors.

Hospitals' Recognitions: Accreditations and Awards

Manatee Memorial Hospital is proud of the following accomplishments:

- The Joint Commission Gold Seal of Approval®
- Accredited Chest Pain Center with PCI and Resuscitation from American College of Cardiology*, 2017-2019
- Mission Lifeline Gold Achievement, American Heart Association, 2018 – fourth year in a row
- Accredited in Adult Transthoracic Echocardiography by the Intersocietal Accreditation Commission
- Accredited in Adult Transesophageal Echocardiography by the Intersocietal Accreditation Commission
- Get With the Guidelines — Stroke Gold Plus Quality Achievement, American Heart Association/American Stroke Association, 2018 – ten years in a row
- Target: Stroke Elite Honor Roll, American Heart Association/American Stroke Association, 2018 – second year
- Advanced Primary Stroke Center Certification, The Joint Commission
- Advanced Primary Stroke Center Certification, American Heart Association
- Screening Center of Excellence by the Lung Cancer Alliance, 2018
- Designated Lung Cancer Screening Center, American College of Radiology
- Certification for Hip and Knee Replacement, The Joint Commission, 2018
- Clinical Service Center of Distinction and Center of Excellence Awards for Wound Care, Healogics, Inc., 2018 – eighth year
- Accreditation as a comprehensive center from the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP®), 2018
- Designated Blue Distinction® Center+ for Maternity Care, Florida Blue, 2018
- Oncology/Cancer Program is accredited by the American College of Surgeons Commission on Cancer
- Laboratory Accreditation, College of American Pathologists
- Blood Gas Laboratory Accreditation, College of American Pathologists
- Breast Imaging Center of Excellence, American College of Radiology
- Breast Magnetic Resonance Imaging Accredited Facility, American College of Radiology
- Stereotactic Breast Biopsy Accredited Facility, American College of Radiology
- Breast Ultrasound Accredited Facility, American College of Radiology
- CT Adult – Head, Neck Chest, Abdomen Accredited Facility, ACR
- CT Pediatric– Head, Neck Chest, Abdomen Accredited Facility, ACR
- Mammography Accredited Facility, American College of Radiology
- MRI Head, Spine, Body, Musculoskeletal, MRA Accredited Facility, ACR
- Nuclear Medicine Accredited Facility, American College of Radiology
- Ultrasound Accredited Facility, American College of Radiology

*American College of Cardiology (ACC) Accreditation Services, formerly the Society of Cardiovascular Patient Care

Off-Campus Services

Manatee Diagnostic Center (MDC) a freestanding imaging center with four locations, has built a reputation for outstanding care and compassion for adults and children since it opened in 1988. Manatee Memorial Hospital acquired MDC in April 2016.

Manatee Diagnostic Center offers these advanced diagnostic services:

- High risk hereditary cancer assessment program
- Mammography 2D and 3D digital (Riverside & Pointe West)
- Biopsies with stereotactic, ultrasound or MRI guidance
- Bone densitometry (DEXA scans)
- CT scans
- CT heart score
- Low-dose CT lung cancer screening
- Fluoroscopy
- Genetic testing
- MRI
- Nuclear Medicine
- X-ray
- Ultrasound

Manatee Diagnostic Center Awards and Accreditations

Manatee Diagnostic Center is proud of the following accomplishments:

- The Joint Commission Gold Seal of Approval®

- Fully accredited by American College of Radiology (ACR) with the accreditations below:
  - · Breast Imaging Center of Excellence, ACR
  - · Breast Ultrasound Accredited Facility, ACR
  - · Mammography Accredited Facility, ACR
  - · Breast Magnetic Resonance Imaging Accredited Facility, ACR
  - · Stereotactic Breast Biopsy Accredited Facility, ACR
  - · Ultrasound Breast Accredited Facility, ACR
  - · CT Adult – Head, Neck Chest, Abdomen Accredited Facility, ACR
  - · CT Pediatric– Head, Neck Chest, Abdomen Accredited Facility, ACR
  - · Designated Lung Cancer Screening Center, ACR
  - · MRI Head, Spine, Body, Musculoskeletal, MRA Accredited Facility, ACR
  - · Nuclear Medicine – Planar, SPECT, Cardiology Accredited Facility, ACR
  - · Ultrasound General – OB first Trimester, Gynecological, General Accredited Facility, ACR
  - - Expanded their Parrish location
  - - Manatee Diagnostic Center locations will receive new equipment in 2019
  - - Screening Center of Excellence by the Lung Cancer Alliance, 2018
